 PARTS: extended warranty on parts is available (10 years/5,000 cycles)

Skyfold is pleased to be an official member of the U.S. Green Building Council. The Green Council is committed to promoting better designed buildings that are not only more environmentally and socially responsible, but also help improve the quality of life for those who occupy them and the communities in which they are built. The Council has developed a benchmarking system known as LEED (Leadership in Energy & Environmental Design). When it comes to recycled materials, architects and owners who choose a Skyfold Custom Powerlift Partition system can calculate the following toward LEED accreditation on their projects.

- Recycled materials Up to 97%
- Post-consumer Up to 27%
- Pre-consumer Up to 50%

In order to continue protecting our environment, it is essential that we all do our part by using recycled materials whenever possible. Skyfold is proud to help.
